Customer Supplied Press-Ready PDF Files

What is a press-ready PDF? A file of high resolution with all fonts embedded and subsetted, color attributes set in CMYK or spot (PANTONE) color-space. Settings are optimized for high-quality printing.

To create Press-Ready PDF files please ensure the correct job options are selected in the Distiller Job Options.

For your convenience we have uploaded these settings as a file. Please click (http://splash-graphics.com/download/Splash_PDF_Settings.zip) and unzip (Splash_PDF_Settings.joboptions) and upload in to Acrobat Distiller.
